No.74/SCOSTA/SKS/09

Dated: 12/05/09

NOTICE

Modified SCOSTA-CL test scripts have been released. All the future implementation of SCOSTA-CL shall be tested through the modified test scripts. The existing valid SCOSTA-CL certificate holders are required to up-grade their existing products for complying with the latest test scripts before 31st August 2009, after which the existing certificates if not revalidated shall be treated as invalid. There shall be no testing fee for revalidation of existing valid certificates. However certificate holders shall be required to submit fresh samples (soft-mask + hard-mask or only hard mask) and final hard-mask samples must be submitted before 15th August 2009.

The applicants for whom the certification process is going-on, they may also submit the fresh samples in lieu of the samples already submitted. All the fresh applications shall be tested only with the modified test scripts.
